

## 7.6、 MicroPython API documentation

---

### 7.6、 MicroPython API documentation

Since the MicroPython API documentation may be updated at any time, the API documentation of K210 is placed in the link of the official website, please click to view:

<https://developer.canaan-creative.com/index.html?channel=developer#/word>

It includes the API introduction of the basic MicroPython syntax, as well as the K210-specific API function introduction. You can directly save it for viewing, and find the relevant directory for which function you need.
